

Activity 3: Wee See You

Activity 3: Seeing their own reflections in the mirror or in a window as you walk by, is something babies love to look at. Why? Well, they love looking at that beautiful baby on the “other side”. In this activity, “Wee See You”, your baby will begin developing self-identification.

What does it build? Self-identify

Materials: Mirror (or baby safe toys and books with built in mirrors)

How to Play:

1. Choose one of the above suggestions listed in the materials.
2. Show your baby his reflection in the mirror and say “*Who is that baby?*” “*Is that you?*” “*We see you!*”
3. Continue talking to your baby about what he sees in the mirror. If your baby smiles then say, “*Oh, look! (Baby’s name) is smiling! He is so happy!*” Also, point out other observations like the color of the baby’s hair, his eyes, nose, etc.
